   - and how to give a great pitch no matter the topic.
   And learn how the Business Plan Competition (BPC) and other competitions work, including entry requirements, stages of competition, judging criteria, and prizes for winners.

Required reading: provided by instructor.

Grading:
No textbooks, no tests, no grades (pass/fail only), limited assignments but tons of class participation, team-work and practical application of tools. Passing performance is based on:

Participation (20%): class attendance is critical, everyone must sign in at the beginning of class to be counted (8 of 10 minimum);

Quizzes (20%): there will also be many simple, “no wrong answer” surveys, 80% of these is also required;

Business Planning Template (30%): Even the best idea needs a plan to turn it into a business. This template is a simple tool outlining the elements of a sound business plan (also reflecting the criteria for judging the BPC). Students may choose to work in teams of 3-4 students. Every team/student must provide/justify answers in a final document of no fewer than 4 and no more than 15 pages.

Company Pitch (30%): The moment of truth comes in pitching your company. There are several opportunities for students to practice telling the persuasive story of their business. Every team/student must provide a finished Powerpoint/Slides version of this by end of the class.
