Autumn 2020, Thursdays 6:00 – 7:50pm, Remote Only

Office hours by appointment only; Syllabus subject to change

Instructor: James Newell, newell@voyagercapital.com, (206) 438-1806

Course description: This course provides an overview of the venture capital world. Though the capstone of the class is the Venture Capital Investment Competition (VCIC), the curriculum is more broadly designed to provide students with the necessary tools to evaluate early-stage investment opportunities as a venture capital investor. Attendance, however, is limited to students who fully intend to participate in the intramural VCIC.

The class is interactive and integrative – every session will involve student activity and every subsequent week will build on the materials covered previously. Guest speakers include entrepreneurs, VCs, early-stage attorneys and prior VCIC competitors; and, students will engage with them on a weekly basis. Through team-based exercises, Q&A and role play, you'll get into character as a venture capitalist. We will cover such basics as business analysis, valuation, term sheets, the investment life cycle and negotiations. **Venture Deals – Be Smarter Than Your Lawyer and Venture Capitalist**, by Brad Feld and Jason Mendelson is required reading; other readings will be topical, online research as recommended by industry experts – the more research you do, the more you will get out of the class. The course will entail weekly readings and other individual and group submissions. It is a 2-credit, C/NC course, but credit cannot be granted to students who miss more than two classes.

What is VCIC? The premier entrepreneurial strategy competition for more than 60 of the top international business schools, the VCIC (<http://www.vcic.unc.edu/>) is entering its 22st year. Turning the traditional business plan competition on its head, students pose as venture capitalists managing a \$150 million fund. Student teams will read and evaluate business plans, interview CEOs, make an investment decision, and construct and negotiate a term sheet – all in a fish bowl under observation by real life venture capitalist judges. **The UW intramural competition will be held remotely in early January 2021.** The winning team will compete in a regional competition against schools across the Western US, and eight regional champions will move forward to the 22st annual international competition, which is typically held at the University of North Carolina – Chapel Hill. The UW has a strong VCIC tradition, winning world championships in 2004 and 2006 and a second place finish in 2008, 2014 and 2015.
