#### **OVERVIEW**

The Global Business Forum is an MBA class and discussion forum where professionals from around the world share their insights into the complexities of doing business globally - differences encountered, obstacles overcome, advantages discovered, and solutions developed. - To build knowledge of how organizations work differently in different countries and regions.
- To define the additional leadership qualities which are required of global business executives and professionals.
- To learn best practices and skills for global business.
- To meet and build meaningful relationships with global business professionals

# 2024-25 GLOBAL BUSINESS FORUM THEMES

### Fall 2024: International Trade and Geopolitical Dynamics

This quarter will explore how international trade and geopolitical dynamics impact global organizations. We will invite leaders from public and private sectors to untangle the complex relationships between trade and politics to answer questions such as: How do government and corporate leaders anticipate, respond to, and impact political events around the world? How do companies leverage and mitigate risks associated with trade disruptions? How will global businesses respond to US political events (such as the November presidential election)?

## Winter 2025: Global Approaches to Fashion and Lifestyle

Globally, the clothing industry employs more than 300 million people along the value chain (MacArthur Foundation 2019) and in 2020, the World Economic Forum reported that the fashion industry is responsible for 10% of humanity's carbon emissions. Fashion and lifestyle is a growing industry with global implications for people, planet, and profits. GBF will invite a diverse portfolio of speakers to discuss how the fashion industry is impacting global economies and to explore how multinational companies integrate cultural aesthetics and lifestyle differences into their product offerings, marketing, and design decisions.

#### Spring 2025: Doing Business with India

According to a Bloomberg report released in spring 2024, India is projected to be the third largest economy in the world as of 2027. The GBF will host executives who have worked in India or have built and maintained significant relationships with companies in India to share their insights, perspectives, and experiences. Speakers will be asked to discuss and identify opportunities in India, their predictions for the future of India and how it will impact the global economy.
